Les Ouvrages Royal Enrg.,
Grand'Mere, Quebec. $3,614.73 Tax $1,625.28 Penalty

An assessment of $7,614.73, largely estimated, due to lack of records, was established against this licensed soft drink manufacturer in April, 1965. Mr. Jacques Heroux, although a partner with his brother, was virtually sole principal of the company. Formal bankruptcy was contemplated but did not progress beyond appointing a trustee to make a proposal to the creditors. Mr. Jacques Heroux had acquired from his father this decrepit soft drink business, the profits of which he was to share with his brothers. Only Jacques among the brothers seemed willing to work, and Jacques finally acquired all of the doubtful assets and liabilities. One brother could legally be considered partially responsible for the arrears of sales tax, but he is a salaried employee of another company, has a large family and if possible, is worse off than Jacques. Insistence that the proprietor Mr. Jacques Heroux pay this assessment in full would cause undue hardship, as he is in very poor financial condition. The underpayment of tax seems to have arisen through bad administration and incompetence rather than deliberate evasion of tax responsibilities. Mr. Jacques Heroux has managed to raise $4,000.00 and requests that this be accepted in full settlement. In the circumstances remission of the amounts indicated is recommended.

Atelier Octave St-Denis,
Chute A Blondeau, Ontario. $416.18 Tax $182.38 Penalty

An assessment of $516.18 was established against this licensed woodworking industry in February, 1965. The arrears are due to the omission of payment of tax for February, 1961, which, due to an oversight by their accountant, was completely overlooked. The owner of the business died in October, 1960, and his wife attempted to carry on but has since ceased manufacturing. The widow has two children to support and is in financial difficulties; she has managed to borrow $100.00 and requested this sum be accepted in full settlement of the arrears. In the circumstances remission of the amount indicated is recommended.

Car Protectors Inc.,
Montreal, Quebec. $720.93 Tax $755.87 Penalty

The noted company was assessed $3,348.78 by audits covering the period from November 1, 1959, to March 31, 1964. The assessment represented tax on sales of seat covers, part of which was of their own manufacture and the remainder purchased tax paid from other manufacturers. A protest was filed against the assessment, but the assessment was upheld since no segregation of the goods manufactured and those purchased tax paid was made in the company records. The Department has received payment of $2,627.85, but licensee protests payment of the balance, claiming that this represents tax on goods purchased tax paid, and postage prepaid but not allowed. As it is probable that tax has been [illegible] on sales of tax paid goods and as allowances could have been made for postage had it been shown on the invoices, it is considered that the company's [illegible] is equitable. It is therefore recommended that remission be granted of [illegible].

Joseph Carmon & Fils Inc.,
Ste. Jean Port Joli, Quebec. $918.90 Tax $302.75 Penalty

This firm was assessed $2,018.90 for sales tax not paid during the audit period September 1, 1[illegible] to November 30, 1[illegible]. Because of the firm's financial condition the Department agreed to accept payment by way of instalments. In this manner, the audit arrears were reduced to $1,362.90 exclusive of accrued penalty. The company now has tendered a cheque for $444.00 as final payment, since they claim that payment of the entire assessment would force them out of business. In view of the circumstances, acceptance of this offer appears equitable.

Kitchener Electric Shop,
Kitchener, Ontario. $1,522.27 Tax $544.81 Penalty

An assessment in the amount of $2,362.72 was established against this firm for the period February 1, 1960 to December 31, 1961. Most of the assessment resulted from sales of taxable goods made tax exempt because the owner, Mr. Paul Grigoroff, believed that all sales to farmers were exempt. The firm ceased operations and license was cancelled as at December 31, 1961. Diligent collection action has so far yielded $240.45 applied against the assessment. An attempt to attach Mr. Grigoroff's wages under Section 50(6) of the Excise Tax Act was thwarted by his present employer who indicated that such action would lead to Mr. Grigoroff's dismissal. Mr. Grigoroff has managed to borrow $600.00 which he proffered as final payment. Considering that at the present rate of collection, the account will not be cleared for several years, acceptance of this offer appears equitable.

The Foster Pottery Co. Ltd.,
Hamilton, Ontario. $7,231.49 Tax $1,029.14 Penalty

An assessment based on the sale of clay flower pots to farmers, nurserymen and greenhouse operators was established against this firm. This merchandise had been improperly sold tax-exempt under 'production of goods' certificates. Strong objection was made to the assessment on the grounds that the firm was not notified until May, 1964, that the exemption formerly allowed had been repealed effective June 14, 1963. In the circumstances, remission of the assessment plus applicable penalty is deemed equitable.

Foley Potteries Limited,
Hamilton, Ontario. $1,900.79 Tax $240.36 Penalty

An assessment based on the sale of clay flower pots to farmers, nurserymen and greenhouse operators was established against this firm. This merchandise had been improperly sold tax-exempt under 'production of goods' certificates. Strong objection was made to the assessment on the grounds that the firm was not notified until May, 1964, that the exemption formerly allowed had been repealed effective June 14, 1963. In the circumstances, remission of the assessment plus applicable penalty is deemed equitable.

Creations Guy Lang.,
Montreal, Quebec. $137.03 Tax $34.30 Penalty

An audit assessment of $137.03 tax was made against this licensed manufacturer of artificial plants, who also frames pictures. This picture framing business is interesting in that an original oil painting is created by an artist, photographs of such paintings are shown to customers who choose the landscape, still life, etc. and the order is filled by the artist who reproduced the original painting. This licensee pays about $19.00 for the painting, frames it and sells it framed for about $27.00. This brought up for consideration the $20.00 mentioned in Tariff Item 695a and, however the question may have been worded, there is no doubt that at one time the firm did query the application of tax. The sale price of $27.00 seems to have been the governing factor and they were told tax did not apply. The assessment represents a direct loss to this firm, as the tax was not charged or collected from the customer; therefore remission is deemed equitable.

PRIVY COUNCIL

Certified to be a true copy of a Minute of a Meeting of the Committee of the Privy Council, approved by His Excellency the Governor General on the 17th January, 1966.

The Committee of the Privy Council have had before them a report from the Minister of Transport and the Minister of Finance, representing:

That the 1965 Capital Budget of the Canadian National Railways was passed by Order in Council P.C. 1965-375 of 4th March, 1965, pursuant to section 37 of the Canadian National Railways Act and section 80 of the Financial Administration Act;

That the said Capital Budget included commitment authority to enter into contracts prior to July 1966 for the acquisition of new equipment and to make modifications to present equipment that will come in course of payment after the calendar year 1965 in amounts not exceeding in the aggregate $60,000,000;

That the commitment authority of $60,000,000 has been practically exhausted by reason of a rate of growth of demand for railway service which has substantially exceeded the railway forecasts and which is expected to continue;

That Canadian National Railways are in immediate need of additional commitment to the extent of a further $20,000,000 to enter into contracts for new equipment because the limited capacity of Canadian car builders make it essential to place the required orders promptly; and

That the equipment orders cannot safely be delayed beyond mid-January due to the pressing nature of the need for early deliveries and therefore cannot await the submission and approval, in the ordinary course, of the Canadian National Railway's 1966 Capital Budget.

The Committee, therefore, on the recommendation of the Minister of Transport and the Minister of Finance, advise that Your Excellency may be pleased to allow Canadian National Railways to increase the commitment authority of $60,000,000 authorized by Order in Council P.C. 1965-375 of 4th March, 1965, a further $20,000,000 to a total of

Notes to Schedules A, B and C

1. Where two or more rates are altered to a single rate of pay in the new scale of rates, the first increase in pay thereafter for an employee being paid less than the highest of such rates shall become due at the end of the increase period calculated from the effective date.

2. In cases where some or all of the rates of a grade are underlined, increases to the rates underlined are normally given semi-annually.

Notes aux annexes A, B et C

1. Lorsque la revision a pour effet de remplacer deux ou plusieurs taux par un seul taux de traitement dans la nouvelle liste de taux, le premier relèvement de traitement attribué par la suite à un employé touchant un traitement inférieur au plus élevé desdits taux deviendra applicable à l'expiration de la période de relèvement calculée à compter de la date d'entrée en vigueur.

2. Lorsque quelques taux ou tous les taux d'une classe sont soulignés, les relèvements aux taux soulignés peuvent ordinairement se donner sur une base semestrielle.

. . .

SCHEDULE D

1. Each employee who holds a position in a class and grade specified in Schedules A, B and C, may be paid at the rate shown immediately below the rate he was eligible to receive on the effective date, and, subject to section 2, if appointed after the effective date, he may be paid the rate shown immediately below the rate he was eligible to receive on the date of appointment.

2. Where, after the effective date, an employee was appointed at a rate of pay higher than the minimum rate applicable to that position or class, he may be paid on the date of appointment in the new scale of rates at the rate of pay that is nearest to but not less than the rate of pay he was receiving on the date of appointment or, with the approval of the deputy head, he may be paid at a higher rate which does not exceed the rate shown immediately below the rate he was receiving on the date of appointment.

ANNEXE D

1. Tout employé qui occupe un emploi relevant d'une catégorie et classe mentionnées aux annexes A, B et C, pourra être rémunéré au taux indiqué immédiatement au-dessous du taux auquel il était admissible à la date d'entrée en vigueur, et, sous réserve de l'article 2, s'il a été nommé après la date d'entrée en vigueur, il pourra être rémunéré au taux qui apparait immédiatement au-dessous du taux auquel il était admissible à la date de sa nomination.

2. Lorsque, après la date d'entrée en vigueur, un employé a été nommé à un traitement plus élevé que le minimum autorisé pour cette catégorie ou grade, il pourra être rémunéré à la date de sa nomination conformément à la nouvelle échelle de traitements au taux le plus rapproché du taux de traitement qu'il recevait à la date de sa nomination, sans toutefois y être inférieur, ou, moyennant l'autorisation du sous-chef, il peut être rémunéré à un taux supérieur ne dépassant pas le taux qui apparait immédiatement au-dessous du taux qu'il recevait à la date de sa nomination.

The Committee of the Privy Council have had before them a report dated 20th January 1966, from the Minister of Finance, submitting:

That section 12 of the Farm Credit Act provides that, at the request of the Corporation, the Minister of Finance may, with the approval of the Governor in Council, pay to the Corporation amounts not exceeding in the aggregate $24 million, and the money paid to the Corporation under this section constitutes the capital of the Corporation;

That section 13 of the said Act provides that, at the request of the said Corporation, the Minister of Finance may, out of the Consolidated Revenue Fund, lend money to the Corporation on such terms and conditions as are approved by the Governor in Council, but the aggregate amount of the loans outstanding made under this section shall not at any time exceed twenty-five times the capital of the Corporation;

That the aggregate of loans made to the Corporation and outstanding at this time, approximates $537,000,000 and the amount presently permissible under the Act is $550,000,000 having regard to the fact that the capital of the Corporation now stands at $22,000,000; and

The Committee, therefore, on the recommendation of the Minister of Finance, advise that Your Excellency may pleased, pursuant to sections 12 and 13 of the Farm Credit Act, to approve

(a) payments by the Minister of Finance, aggregating $750,000 to the Farm Credit Corporation from time to time as required during the fiscal year ending March 31, 1966 in order to increase the Corporation's capital to $22,750,000; and

PRIVY COUNCIL

Certified to be a true copy of a Minute of a Meeting of the Committee of the Privy Council, approved by His Excellency the Governor General on the 3rd February 1966.

The Committee of the Privy Council have had before them a report dated 31st January 1966, from the Minister of Transport, representing:

That in 1908 the Commissioners of the Transcontinental Railway bought for their right-of-way and station grounds at Neuville, Quebec, a strip of land 300 feet wide to be staked out 150 feet on each side of the centre line of the railroad through Lots 35, 36, 41, 42, 45, 50, 56 and 57 Parish of Pointe-aux-Trembles, County of Portneuf, Province of Quebec. When this area was fenced, the boundary was fenced 200 feet to the north from the centre line of the railway and 100 feet to the south from the said centre line. The error was discovered in 1921 and at that time it was decided to correct the situation by having the adjoining owners agree to a straight exchange of 50 foot strips;

That a recent check of Canadian National Railways' Records indicates that there are three (3) parcels to which they do not have Title. These apparently were not included in the 1921 exchange. In order to straighten out the boundary at this time it was proposed to complete the following exchange with the adjoining owners;

Parcel I:

The conveyance to Mr. Charles Gagnon of 9,595 square feet of Transcontinental Railway land being part of Lot 561 of Original Lot No. 35 of the Official Cadastre of the Parish of Pointe-aux-Trembles, Registration Division of Portneuf, Province of Quebec, as shown outlined red on Plan prepared by Yvon Cote, Q.L.S., dated November 12th, 1965, on file in the records of the Department of Transport,

in exchange for:

9,595 square feet owned by Mr. Charles Gagnon being part of Original Lot No. 35 of the Official Cadastre of the Parish of Pointe-aux-Trembles, Registration Division of Portneuf, Province of Quebec, as shown outlined green on the Plan mentioned above.

... 2

Parcel II:

The conveyance to Mr. Henri Angers of 12,920 square feet of Transcontinental Railway Land being part of Lot 561 of Original Lot No. 42 of the Official Cadastre of the Parish of Pointe-aux-Trembles, Registration Division of Portneuf, Province of Quebec, as shown outlined red on Plan repared by Yvon Cote, Q.L.S., dated November 12th, 1965, on file in the records of the Department of Transport,

in exchange for:

12,920 square feet owned by Mr. Henri Angers being part of Original Lot No. 42 of the Official Cadastre of the Parish of Pointe-aux-Trembles, Registration Division of Portneuf, Province of Quebec, as shown outlined green on the Plan mentioned above.

Parcel III:

The conveyance to Mrs. Octavie Giguere-Drolet of 21,490 square feet of Transcontinental Railway land being part of Lot 561 of the Original Lot No. 56 of the Official Cadastre of the Parish of Pointe aux-Trembles, Registration Division of Portneuf, Province of Quebec, as shown outlined red on Plan prepared by Yvon Cote, Q.L.S., dated November 21th, 1965, on file in the records of the Department of Transport,

in exchange for:

21,490 square feet owned by Mrs. Octavie Giguere-Drolet being part of Original Lot No. 56 of the Official Cadastre of the Parish of Pointe aux Trembles, Registration Division of Portneuf, Province of Quebec, as shown outlined green on the Plan mentioned above; and

That the proposed exchanges are recommended by the Railways and concurred in by the General Manager of the Real Estate Branch of the Department of Transport.

... 3

The Committee, therefore, on the recommendation of the Minister of Transport, advise that, pursuant to the Canadian National Railways Act, the parcels of land described above be withdrawn from entrustment to the Canadian National Railways.

The Committee further advise that the Minister of Transport be authorized as the "Commissioners of the Transcontinental Railway" to convey the aforesaid lands to the parties mentioned heretofore, in consideration of the conveyance to the Crown of the parcels of land above described, the conveyance by the Commissioners of the Transcontinental Railway, in each case, to be made upon execution by the person involved of a Deed of Conveyance in favour of the Crown covering title to the land to be conveyed to the Crown, free from all encumbrances, such Deeds to be satisfactory to and to be obtained through the law officers of the Canadian National Railway Company.

The Committee of the Privy Council have had before them a report dated 31st January 1966, from the Minister of Transport, representing:

That by authority of Board Order No. 102467 and Amending Order No. 103179, dated September 27th and December 2nd, 1960, respectively, the Canadian National Railways relocated a portion of its Courtenay Bay Branch at Saint John, New Brunswick. This was done in order to eliminate several level crossings and to co-operate with the Corporation of the City of Saint John in a redevelopment scheme;

That, to date, the Railways have not acquired title to portions of the relocated line owned by the City between Marsh Creek and Courtenay Bay Branch and between the Dry Dock Spur and Egbert Road. The remainder will form part of a site for a sports stadium which is to be constructed as a Centennary project on a cost sharing basis with the City of Victoria and the Municipalities of Esquimalt, Oak Bay and Saanich;

The Committee of the Privy Council have had before them a report dated 7th February 1966, from the Minister of Transport, representing:

That the Management of Canadian National Railways reports as follows:

By Order in Council P.C. 1962-925 of 28th June, 1962, approval was granted for installation of an industrial spur at Mile 49.06, Valleyfield Subdivision, Parish of Ste. Cecile, near Valleyfield, Quebec;

St. Lawrence Fertilizers Limited has acquired 25 acres of land immediately adjacent to and east of a plant of Canadian Electrolytic Zinc Limited, on which it is constructing a plant with a capital investment of $9,500,000, the same to be in production in 1966 and to be served by private sidings, within the plant area measuring 4,320'. In order to reach the plant site, the Canadian National Railways propose to construct a further spur track having a length of 835' connecting with the existing spur referred to above and shown coloured red on railway plan L- 136A dated revised December 17, 1965. To accomplish such construction it is necessary for the Railway to acquire, at a cost of $7500, 125,034 sq. ft. of privately owned land and shown coloured green on said railway plan L-136A. The estimated cost of construction of the additional spur, at Railway prices, exclusive of the right-of-way, totals $11,618. The Railway has secured a contribution of $3,000 from the St. Lawrence Fertilizers Company and as there is a possibility the City of Valleyfield will subsequently establish facilities in the vicinity which require private siding services, the Railway has also secured a promise from the said City to contribut $2500 towards the cost of purchasing the required right-of-way.

When operating at full capacity, it is anticipated that the St. Lawrence Fertilizers Limited plant will produce 100,000 tons per year with gross annual outbound revenue to the Railway of approximately $584,000 per annum, with a possibility of inbound movement of between $66,000 and $150,000 per year; and

... 2

That the Minister of Transport, has sanctioned the location of the industrial spur track, aforesaid, as shown coloured red on said Railway Plan L-136A dated revised 17th December, 1965, on record in the Department of Transport,

The Committee, therefore, on the recommendation of the Minister of Transport, advise that Your Excellency may be pleased, pursuant to section 22 of the Canadian National Railways Act, to approve the construction, operation and maintenance by the Canadian National Railway Company of the said railway industrial spur track on the said location.
